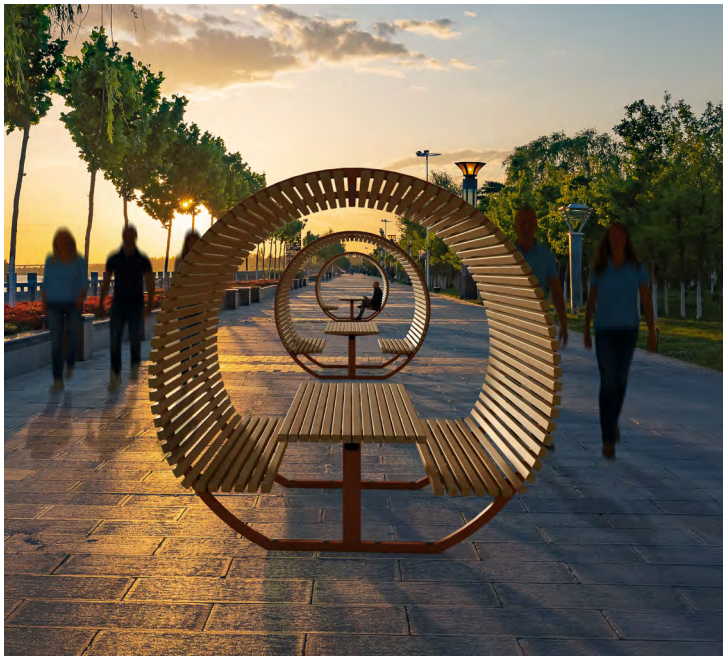
ENG

CISON CONTEA O | OC



Circular shading structure with integrated table and seats, made of two 60x60x4 mm curved tubular steel supports, welded to 4 mm thick shaped steel sheet brackets and ribs onto which ninety 50x43 mm hardwood or thermo-treated pine slats are fixed. It can be equipped with a cover made of 1.5 mm thick st eel sheet, riveted.
The table is prepared for the installation of an IP54 schuko socket (optional). The shade is prepared for LED lighting (optional) on a tubular bar in the centre of the structure.
All metal parts are galvanised and coated with thermosetting polyester powder.
The hardwood is treated with water-based pigmented impregnation, while thermo-treated pine is supplied not impregnated (impregnation available as an option).
All fixings are in AISI304 stainless steel.
Prepared with holes Ø 12 mm for ground fixing with mechanical dowels (included).
