CISON CONTEA C

Semi-circular shading structure with integrated table and seats, made of two 60x60x4 mm curved tubular steel supports, welded to 4 mm thick shaped steel sheet brackets and ribs onto which seventy-one 50x43 mm hardwood or thermo-treated pine slats are fixed.
The table is prepared for the installation of an IP54 schuko socket (optional). The shade is prepared for LED lighting (optional) on a tubular bar in the centre of the structure.
All metal parts are galvanised and coated with thermosetting polyester powder. The hardwood is treated with water-based pigmented impregnation, while thermo-treated pine is supplied not impregnated (impregnation available as an option).
All fixings are in AISI304 stainless steel.
Prepared with holes Ø 12 mm for ground fixing with mechanical dowels (included).
